

CELEBRATING OUR PROVENANCE

- We have a process in place to identify and reduce our impact on human rights and the environment in our supply chain
- We screen new suppliers to ensure that their practices meet our standards
- We strongly encourage our suppliers to carry out their own due diligence process
- We have a written commitment from our suppliers to meet our sustainable procurement standards
- We have prepared a code of conduct for our business relationships, which we share with all our main suppliers
- All these are available to see on our corporate website <https://www.compass-group.co.uk/our-impact/our-climate-promise/>
